

Portable PCS Cellular Phone Jammer

Emits a carrier that sweeps the 1930-1990 MHz cellular tower transmitter band (handset receive band)

Green Bay Professional Packet Radio - www.gbppr.org
Electronic Warfare Division

Jam it 'til it hertz!

NOTES

-  Type 43 ferrite bead on lead
-  50 Ohm micro stripline

Note 1 Tweak these pots to get a sweeping carrier, mixed with noise, from around 1930 to 1990 MHz
